Sponsor Spotlight: FRASCA Flight Simulation

Rudy Frasca founded the company in 1958. FRASCA's goal has always been to build high quality flight simulators, flight training devices, and simulation components. FRASCA products are used in many segments of aviation, including many prominent college aviation programs. Simulated aircraft range from small, single-engine planes to large, transport planes. NIFA would like to thank FRASCA for their support of SAFECON.
